1. Introduction

The National Medical Devices Policy 2023, approved by the Union Cabinet of India on 26th April 2023, is expected to help the Indian medical devices sector grow from the present \$ 11 billion to \$ 50 billion in next five years. The policy aims to build an innovative and globally competitive industry in India. It encourages research, development, and adoption of cutting-edge medical technologies. It is designed to foster innovation and enhance the quality of manpower in India's medical device sector. By fostering innovation, the policy ensures that India remains at the forefront of medical device advancements. Quality manpower ensures the effective implementation of policies and the delivery of safe and reliable medical devices. By supporting quality manpower development, the policy contributes to better healthcare outcomes for patients.

Sree Chitra Tirunal Institute for Medical Sciences and Technology (SCTIMST), located in Trivandrum, Kerala, India, has made significant contributions to medical device development in the country. As an **Institution of National Importance** with the status of a university under the **Department of Science and Technology, Govt. of India**, by an Act of Parliament (Act 52 of 1980), SCTIMST has a rich legacy of pioneering the convergence of medicine and technology in India.

Some notable achievements of SCTIMST in the field of medical device development is given below:

1. **Heart Valve:** SCTIMST successfully developed and transferred technology for a **mechanical heart valve prosthesis**. This life-saving device has been widely used in cardiac surgeries.
2. **Blood Bag System:** The institute played a crucial role in establishing a medical device industry base in India by creating the **disposable blood bag system**. This innovation has significantly improved blood transfusion practices.
3. **Blood Oxygenators:** SCTIMST developed and transferred technology for **blood oxygenators**, essential devices used during cardiopulmonary bypass surgeries.
4. **Concentric Needle Electrode:** SCTIMST pioneered the development of the **concentric needle electrode**, a critical tool for electromyography (EMG) studies.
5. **Hydroxyapatite-based Bioceramic Porous Granules:** These granules, developed by SCTIMST, find applications in orthopedic and dental surgeries.
6. **Intrauterine Device (IUD):** SCTIMST contributed to the development of an IUD, a widely used contraceptive method.
7. **Vein Viewer:** The institute's research led to the creation of a **vein viewer**, aiding healthcare professionals in locating veins for intravenous procedures.

8. **RNA Isolation Kit and Multiplex RT PCR Kit:** SCTIMST developed kits for RNA isolation and multiplex reverse transcription-polymerase chain reaction (RT-PCR), crucial for molecular diagnostics.
9. **TIMed (Medical Devices Incubator):** SCTIMST established **TIMed**, a medical devices incubator, fostering innovation and collaboration between researchers, industry, and entrepreneurs.

These achievements demonstrate SCTIMST's commitment to advancing healthcare through cutting-edge medical technologies. The institute continues to focus on research, training, and public health initiatives, making it a beacon of excellence in the field of medical sciences and technology in India.

The joint culture of medicine and technology that the Institute pioneered more than four decades ago has come of age and has gained unprecedented acceptance in India. The Institute also focuses on advanced super-specialty postgraduate training programs in medical specialties and health research of social relevance, and the development of high-quality medical devices and technology of industrial significance. The emphasis is on the development of activities less readily available in the country, such as interventional radiology, interventional stroke care, cardiac electrophysiology, advanced cardiothoracic and vascular surgery, management of epilepsy and movement disorders, micro-, spinal and endoscopic neurosurgery, development of new biomedical devices and products, evaluation of medical devices to global specifications, novel academic programs, and health science research and training.

The Institute has three wings – the Hospital Wing, the Biomedical Technology Wing, and the Achutha Menon Centre for Health Science Studies Wing. Excellent research and learning opportunities are available at these wings. The Institute has a dedicated team of clinicians, scientists and engineers devoted to high-quality medical research, biomedical research, technological development and public health research.

The Institute's objectives are to:

- Promote biomedical engineering and technology.
- Provide and demonstrate high standards of patient care in advanced medical specialties.
- Develop innovative postgraduate training programs of the highest quality in advanced medical specialties, as well as in biomedical engineering and technology.
- Participate in public health reforms through research, training, and interventions.

The Sree Chitra Tirunal Institute for Medical Sciences & Technology Act, 1980, empowers the Institute to offer post-graduate programs in medical sciences, public health and biomedical engineering. To promote the above-specified objectives, the institute now offers post-graduate teaching and training in biomedical sciences and technology through an MTech program.

2. About the MTech Program

2.1. Scope of the Program

Medical devices play an important role in modern healthcare. There is a huge and growing demand in India as well as across the globe for medical devices. India, being one of the major users of medical devices and implants, depends on imports for over 80% of its needs. The nation is striving to expand its capabilities and human resources in medical devices and implants and become self-sufficient. Data-driven medical diagnosis and treatment is an upcoming area that uses information technology to provide customized and accurate treatment. The Government of India has introduced a Production Linked Incentive scheme in medical device manufacturing to encourage domestic manufacturing, attract significant investments, reduce reliance on imports, and attain self-sufficiency (Atmanirbhar Bharat) in this industry segment as well. To achieve this goal, trained manpower is required, especially in the area of medical devices, biomedical science and technology, and their design, testing and validation. To meet this imminent demand, focused courses and training in Biomedical Engineering are to be implemented. This Master of Technology (Biomedical Engineering) course has been conceived with this background.

This course imparts knowledge and training in Biomedical Engineering with a focus on developing medical devices in the domains of Cardiovascular, Neurological, Orthopaedic, and Orthotic devices with a view to innovating solutions meeting performance, safety, and regulatory criteria. Biomedical signals and imaging and their importance in diagnosis and treatment are also covered. The specialized engineering skills required are imparted through short-term course projects wherein the student is trained to use scientific and technical knowledge and state-of-the-art tools to create an innovative solution. The whole gamut of medical device development from identifying user needs, interacting with clinicians and patients and identifying their requirements, choice of design and materials, modelling and simulation, testing and validation, in vivo models, to clinical trials are covered during the course. The importance of innovation and intellectual property are also introduced. The student will be well poised with this course to take up roles in industry, research as well as academia.

2.2. Program Description

Advanced knowledge in engineering principles, science, technology and its practice in Biomedical engineering will be provided by the course. Emphasis is on providing a comprehensive understanding of the medical device development lifecycle. This includes identifying user needs from the perspective of clinicians, users and patients, their design and development, validation, regulatory requirements, translation and manufacturing. The course will also address the choice and selection of biomaterials for various applications. Biomedical signal and image analysis will also be covered and equip the student towards modern data-driven systems for diagnosis and treatment. The course aims to equip scholars to individually research, innovate and develop medical devices using a needs-based approach, manage risks, achieve performance as well as safety, successfully build, prototype and test, generate intellectual property and communicate their work effectively under a quality management framework.

3. Learning Objectives

- (i) Medical Devices – what, risks, safety, performance, quality, standards, regulatory mechanisms.
- (ii) Biomaterial selection and evaluation for various applications.
- (iii) Biomechanics, Biosignals and Medical Imaging
- (iv) Design and Design Optimization – user needs, analysis, CAD, simulation, computational methods.
- (v) Prototyping, Design verification and validation, Translation, Manufacturing
- (vi) In depth design principles of cardiovascular, electromechanical, polymeric, orthopaedic, and orthotic devices, instrumentation and biomedical signals and images.
- (vii) Quality management systems, Innovation, Intellectual property, effective communication and management skills.

4. Course Structure

The structure of the program is detailed below:

- MTech Biomedical engineering curriculum is interdisciplinary and is of 4 semesters duration.
- Each academic year has 2 semesters of roughly 15 weeks each (5 days working weeks, omitting the days of evaluation/exams).
- The courses will consist of CORE courses in Biomedical engineering, and is common to all students in semester one.
- Specialisation core courses will be offered in second semester and Electives will be chosen based on the student's research interest under the guidance of the Research Advisor.
- In the first year the students to get a practical exposure to Biomedical engineering, would have to do two laboratory internships.
- MTech program sets aside the last two semesters for mentored thesis research. Students will start working on a research area in the third semester of study under the supervision of a guide. Research will be supervised by a Research Advisory Committee (RAC) composed of Research Advisor/Guide (or Mentor), Co-Advisor and a nominee of the Head of Department as ex-officio member. The guide may initiate the steps to constitute RAC which may be recommended by Head of Department and approved by the Dean (Academic affairs). Scholars are expected to carry out their research activity on campus. Research work off-campus will be permitted to sponsored candidates in case an MoU exists that directly facilitates academic activities.
- For identifying research problems, the students are encouraged to contact clinicians, industries including startups, in case an MoU exists with the organisation for collaboration.
- The research area could be an unmet clinical need identified with the help of a clinical faculty or a resident. This unmet need must be researched in depth to arrive at a solution. The Co-Advisor could be a clinical faculty associated with the clinical resident who is also working simultaneously on the clinical aspects in the same area.

- The medium of instruction, examination and project report for all courses is English. The syllabi and curricula of the program are subject to revision from time to time. On course commissioning a Syllabus Revision Committee (SRC) will be formed from participating faculty under the Head of Department. SRC will meet once a year and recommend changes in syllabus and course systems for incoming admissions as necessary. Recommendations from SRC on the course conducted in the department will be passed on to the Academic Affairs for approval through proper channel for implementation.
- Currently maximum number of students admitted would be 10, considering the faculty strength, lab space and facilities. Four seats can be reserved for sponsored candidates. A “No Objection Certificate” from their employers indicating grant of permission to undertake course and commitment to meet expenses will be required.

5. Mode of Selection

The candidates will be selected based on the performance in the following:

- (i) **Statement of Purpose** submitted by the prospective student.
- (ii) **A. Research assistantship category:** Shortlisting based on marks in the qualifying examination and valid GATE score / score in the National level entrance exam like NEET for MBBS/BDS/MVSc, as specified in section 6.III below.
B. Sponsored candidates: Shortlisting based on the marks in the qualifying examination.
- (iii) An institute level test and subsequent interview. The test will be conducted in two streams, namely, engineering stream and non-engineering stream.

6. Eligibility Requirements

Candidates with a CGPA above or equal to 6.5 (or equivalent marks) in the undergraduate level in the following categories are eligible for admission to the course.

- I. B.E./B.Tech. /AMIE or equivalent in following disciplines with valid GATE score
 - Biomedical Engineering
 - Biotechnology
 - Chemical Engineering
 - Computer Science and Engineering/ Information Technology
 - Electrical Engineering
 - Electronics/Telecommunications Engineering
 - Engineering Physics
 - Instrumentation Engineering
 - Mechanical Engineering
 - Metallurgy & Materials Science
 - Pharmaceutical Technology
 - Polymer Technology
 - Other Branches of Engineering

II. M.Sc. or equivalent in following disciplines with valid GATE score

- Biochemistry
- Biophysics
- Biotechnology
- Ceramics
- Chemistry
- Electronics / Electronic Sciences
- Ergonomics
- Materials Science
- Mathematics
- Molecular Biology
- Physics
- Physiology
- Other Branches of Science

III. Health Sciences with all National level post graduate entrance examination for the disciplines like NEETPG, NEETMDS, etc.

- MBBS
- BDS
- BPharm
- BVSc
- B.P.Th., B.O.Th., B.ASLP, Pharm D (Eligible only if the duration of these courses are 4 years or more).

All India level post graduate entrance examination for corresponding disciplines such as INI_CET/NEETPG/ NEETMDS JIPMER/PGI Chandigarh/ AFMC Pune/DNB Part I, AIIPMR for MBBS / BDS, GPAT/ All India level selection examination for BPharm, All India level post graduate entrance examination such as AIIPMR for MVSc., M.P.Th., M.O.Th. and M.ASLP. GATE examination for all such health science background where applicable.

Eligibility/rank certificates for all such national level entrance examinations are required. The candidate should have qualified the entrance examinations (as per the qualification criterion of the respective **exam** for that exam year and category) and the score obtained should be valid (as per the duration of validity for the respective exam) at the time of application to the MTech program.

6.1. Overseas Students

Selection will be based on educational qualifications, professional experience, the sponsoring organizations' assessments, and a telephonic interview. Applicants are required to submit two confidential reference letters while submitting the application form. Also, the candidates have to provide certification for proficiency in English.

7. Number of Seats and Duration of the Program

Duration and commencement of the program: MTech Biomedical Engineering is a four-semester program commences on 1st July 2024.

Reservation: Reservation is applicable for selection as per the Government of India norms.

- **Number of seats:** 10 (ten), (out of ten, four seats are reserved for sponsored candidates, A 'No Objection Certificate' from their employers indicating permission to undertake the program and commitment to meet expenses will be required).
- **If sponsored candidates are not available, then the seat reserved for sponsored candidates will be filled with other eligible candidates.**
- A reservation roaster has been prepared and for the July 2024 session these 6 seats will be distributed as given in the table below:
- If candidates in ST category is not available that seat will be filled with SC candidates and vice versa. If candidates in the reservation category is not available, that seat will be filled with UR candidates.

Seats as per roaster when:	UR	OBC	SC	ST	EWS
Non-sponsored = 6 Sponsored = 4	5	1	0	0	0
Non-sponsored = 10 Sponsored = 0	6	2	1	0	1

8. Categories of Admission and Financial Support

The institute will admit students under the following categories:

8.1. Research Assistantship

Six students will be admitted in this category. An amount of Rs. 12,400/- per month will be paid for GATE/ other national Eligibility test qualified candidates for a period of 24 months. Students receiving assistantship should work in laboratories specified by the department for at least 8 hours per week. Amount will be released based on the attendance in the lab work. In case, sponsored candidates do not join in this academic year, then unfilled sponsored seats will be filled with non-sponsored candidates and research assistantship will be given as mentioned above.

8.2. Sponsored Candidates

Academic institutes, research institutes and industries can sponsor candidates for the program. Four seats are reserved for sponsored candidates. GATE or National level eligibility test is not mandatory for sponsored candidates.

9. Fee Structure

Admission Fee (₹)	
Application fee	1,500 *
Admission fee	1,000

Caution deposit	10,000
Library	1,000
Student welfare fund	1,000
Miscellaneous fee (Identity card, etc.)	500
Total (A)	15,000
<i>(*-1200 for SC/ST category candidates)</i>	

Tuition Fee (₹) – To be paid semester-wise	
Semester 1	25,000
Semester 2	25,000
Semester 3	25,000
Semester 4	25,000
Total (B)	1,00,000

Exam Fee (₹)	
Semester 1	1,000
Semester 2	1,000
Thesis evaluation	5,000
Total (C)	7,000

Total Fee for the MTech BME program (A+B+C) = ₹ 1,22,000 (INR One lakh twenty-two thousand only).

10. Accommodation

Limited hostel facilities on a shared basis are available for students on a payment basis.

11.

Admission notification	1st June 2024
Availability of online application	Up to to 20.06.2024 (5.00 pm)
Call letter Download	Admit cards will be available on the website for download three days before the date of entrance examination/interview.
Date of Entrance Examination	26th June 2024
Date of interview	26th June 2024
Centre of Entrance Examination and interview	SCTIMST Thiruvananthapuram
Commencement of the program	1st July 2024
<p>The institute WILL NOT bear the expenses of the candidates for appearing the interview. The final selection list will be published on the SCTIMST website and notice board.</p>	

12. Course Curriculum

12.1. Program Requirements

MTech (Biomedical engineering) program follows a credit-based system for the successful completion of the degree program. Each course is assigned credits, and continuous assessment is used to assign a letter grade to a student enrolled in that course based on a relative grading scheme. A cumulative grade point average (CGPA) is calculated using the student's letter grades. The following are the minimum requirements for the award of a MTech degree:

- Each student should acquire a minimum of **75 credits** for MTech program.
- All the courses of the first year must be successfully completed.
- Successful completion of the thesis by research is mandatory for the award of the MTech degree.
- Scholars shall be encouraged to attend conferences / seminars in the area of their work by Mentor.
- A prepared manuscript for publication and / or patent application is to be submitted with thesis.

12.2. Coursework and Assessment

The progress of the students will be assessed using:

- (i) Written reports
- (ii) Oral presentations
- (iii) Laboratory reports
- (iv) Examinations
- (v) Thesis

12.3. Assessment Guidelines

- (i) Marks for courses will be awarded on the basis of written assessment and internal assessment.
- (ii) Admission to written assessment (or written examination) is restricted to students who secure 80% attendance. Lack of attendance due to medical grounds will be condoned on production of a medical certificate from a licensed medical practitioner. Written assessment will be for 60% to 80% of the total marks allotted for the course.
- (iii) Internal assessment Assignments: At least one oral presentation will be assigned based on subject area and one assignment in written / typed form. 20-40 marks per module is assigned to the same. 10-15 marks for oral presentation / seminars and 10-25 marks for project work. Marks can be further allotted based on presentations and assignments by faculty. For example, 100 marks is total mark available for assessment to obtain 3 credits for a particular course. Then 60 - 80 marks will be allotted to written exam and 20 - 40 marks will be allotted to internal assessment.
- (iv) Academic Review: Scholars should be made aware that academic activity will be reviewed thoroughly, and plagiarism or unethical practices will not be tolerated in any

form. In case of unethical activity, adverse reports on plagiarism analysis the mentor of the student, RAC & HOD shall be notified. Further action as required will be recommended by the RAC.

- (v) Thesis: This shall be a comprehensive document covering research work from inception, literature review to reporting of results. Format of MTech thesis and guidelines as published with updates from time to time on SCTIMST website should be followed.
- (vi) The Thesis will be evaluated by two examiners nominated by the HOD as well as the research mentor.
- (vii) Submission of thesis will be on the last working day of the penultimate month of the 4th semester. This will provide a three-week window for DAA to provide it for review and gather comments from two examiners before the *viva voce*.

12.4. Assessment Criteria & Evaluation

PERCENTAGE OF MARKS	LETTER GRADE
90 and above	S - Outstanding
80 to < 90	A - Excellent
70 to < 80	B - Very Good
60 to < 70	C - Good
50 to < 60	D - Satisfactory
40 to < 50	E - Poor
<40	F - Fail
Incomplete	I
Withdrawal	W

12.5. Marks Awarded for Courses

For each course the maximum marks awarded on evaluation would be 100 and this may be gained through the following ways of assessment:

- Written Exam : 60 - 80 marks (each course exam)
- Seminars/Assignment : 10 - 15 marks (each course)
- Course Project : 10 - 25 marks (each course)

Laboratory Internship : 100 marks (each report and presentation)

Marks for Research Project Report : 70% (assessed by Monitoring Committee including the mentor)

Marks for Research Thesis Viva : 30% (based on the defence of the thesis)

12.6. Grade Points

GPA - Grade Point Average, Semester wise – SGPA, Cumulative - CGPA

$$GPA = \frac{\sum_i (C_i \cdot GP)}{\sum_i C_i}$$

where C_i is the credit of the course;

GP is the grade point of that course, and \sum_i is the sum of the credits of all registered courses successfully cleared during that semester.

Letter Grades

Grade	Grade points
S	10
A	9
B	8
C	7
D	6
E	4
F	0

Attendance Code

Attendance rounded to	Remarks	Code
$\geq 95\%$	Very good	VG
85 - 94%	Good	G
$< 85\%$	Poor	P

For converting GPA into percentage, use the formula:

$$\text{'Percentage} = 55 + 10 (\text{GPA} - 6)\text{'}$$

Grades 'S' to 'E' indicate successful completion of the course

12.7. Essentials for Completing Courses

- (i) Students are expected to attend all the classes. Students with overall 80% attendance or above will only be permitted to write the end semester examination. Attendance will be recorded in every class.
- (ii) To attend the following semester a student must have completed ALL prerequisite courses (if any) with an E grade or better.

- (iii) A student with an F grade in a course may be given a repeat final examination. An F grade may be improved at best to a E grade as a result of the repeat final exam. Under-performing students may be given remedial classes before the repeat final examination.
- (iv) Repeat of a course is not permitted if the student has obtained a grade E or above in the same course.
- (v) The incomplete grade I is a transitional grade which will be given to the students who miss the end semester examinations under exceptional circumstances (e.g., serious medical reasons) as determined by the MTech course coordinator in consultation with the Head of Department (if applicable) and approved by the Dean (Academic Affairs). Make-up examination will be given to these students provided they meet 80% attendance and other academic requirements as per the rules and regulations of the institute. The actual grade obtained after the make-up examination will be taken and will reflect in the transcript replacing the I grade. In case a student obtains an F grade in the make-up final examination, he/she will be eligible to write the repeat final examination. Absence in the make-up examination will automatically lead to zero marks in that examination and the final grade in that course will be determined based on the other examinations taken in that course. If the absence of a student in an examination is not approved by the Dean (Academic Affairs) (e.g., a deliberate attempt to skip the examination), he/she will be awarded zero marks in that particular course examination. The final grade in that course will be determined based on the other examinations of that course taken by the student.
- (vi) Withdrawal of a registered course in a semester is usually permitted/enforced under very special cases, e.g. due to prolonged illness. W grade is given in these circumstances and the student is asked to repeat the concerned course with same course number taking all examinations when offered next. The new grade obtained by the student will be taken into consideration and appear in the transcript. However, the previous W grade will also appear in the transcript.
- (vii) W grade will not have any effect in the calculation of CGPA. If a student has W grade in a registered course in a particular semester, CGPA will be calculated based on the grades obtained in other courses of that semester.
- (viii) If a student does not clear a CORE course even after writing (or skipping) the repeat final examination, he/she is required to repeat the course with the same course number when offered next taking all examinations. Until the course is repeated and passed by the student, it is treated as a backlog in the student's records. Both the grades, the new grade and the previous F grade, will appear in the grade transcripts.
- (ix) An F grade obtained in a course will contribute to the CGPA until:
 - i. The course with the same course number is completed with a E grade or better (applicable for foundation and core courses) OR
 - ii. Substituted with an alternative course of the respective Department and completed with an E grade or better (applicable only for minor/elective/additional courses).
- (x) A maximum of one backlog course from the first year may be allowed, at the discretion of the Dean (Academic Affairs) and the Director, before a student can choose a major and proceed to the second year.
- (xi) A student who has more than two F and/or W grades in a particular semester of the first four semesters will have to repeat ALL the courses of that semester. Only the new grades

obtained in all the courses will be taken into consideration and the previous grades will be converted to W grades.

- (xii) The student gets elevated gradually to each semester(s) by completing / attempting all the courses of previous semester(s) by registering and writing the end semester examinations as per rule and meeting other academic requirements as per Course Diary.

13. Details of Courses and Credits

13.1. Semester-Wise Credit Distribution

Semester	I	II	Summer Internship	III	IV	Total
Credits	18	19	4	17	17	75

13.2. Assignment of Credits to Courses

Course Code	Course Name	L	T	P	C
SCT XXX	Course 1	2	0	2	3

L: Lecture, T: Tutorial, P: Practical /Lab, C: Credits

One lecture or tutorial hour per week for a 15-week long semester is assigned one credit.

Two laboratory/practice hours per week for a 15-week long semester is assigned one credit.

13.3. Semester-wise Distribution of Courses and Credits

SEMESTER 1

Course Code	Course Name	L	T	P	C
SCT 501	Anatomy and Physiology for Engineers #	2	1	0	3
MDE 501	Immersion to Engineering and Technology #	2	0	2	
BST 501	Biomaterials	2	0	2	3
MDE 502	Fundamentals of Medical Devices	2	0	2	3
MDE 503	Medical Device Technology	2	0	2	3
BMT 501	Research Methodology	1	0	0	1
SCT 551	Clinical attachment	0	0	4	2
BMT 551	Laboratory internship 1	0	0	4	2
BMT 502	Safety in Biomedical Laboratories	0	1	0	1
Total for Semester 1					18

Mandatory bridge course – Either one of these courses should be selected based on the educational background of the student.

SEMESTER 2. SPECIALISATION - MEDICAL DEVICES ENGINEERING

Course Code	Course Name	L	T	P	C
MDE 612	Computational Modelling in Biomedical Engineering	2	0	2	3
MDE 611	Medical Device Design and Production	2	0	2	3
	Elective 1				3
	Elective 2				3
	Elective 3				3
MDE 551	Laboratory Module	0	1	2	2
MDE 552	Laboratory internship II (Mini Project)	0	0	4	2
Total for Semester II					19

SPECIALISATION - MEDICAL DEVICES ENGINEERING: ELECTIVE COURSES

Course Code	Course Name	L	T	P	C
MDE 511	Medical Instrumentation and sensors	2	0	2	3
MDE 512	Biomechanics	2	1	0	3
MDE 513	Biomedical Signal and Image processing	2	0	2	3
MDE 613	Advanced Polymer Technology	2	0	2	3
MDE 514	Orthopaedic Implant Technologies	2	1	0	3
MDE 515	Artificial Intelligence and Connected Health	2	0	2	3

SEMESTER 2. SPECIALISATION - APPLIED BIOSCIENCES

Course Code	Course Name	L	T	P	C
APB 611	Biological & Safety Evaluation	2	0	2	3
APB 612	General Pathology and Implant Biology	2	0	2	3
	Elective 1				3
	Elective 2				3
	Elective 3				3
APB 551	Laboratory Module	0	1	2	2
APB 552	Laboratory internship II (Mini Project)	0	0	4	2
Total for Semester II					19

SPECIALISATION - APPLIED BIOSCIENCES: ELECTIVE COURSES

Course Code	Course Name	L	T	P	C
APB 511	Applied Biochemistry & Physiology	1	1	2	3
APB 512	OMICS (Genomics, Proteomics, Metabolomics)	2	0	2	3

APB 613	Tissue Engineering & Regenerative Medicine	2	1	0	3
APB 614	Tissue-based Medical Devices	2	1	0	3
APB 513	Fundamentals of Pharmacology	2	1	0	3
APB 615	In-vivo Functional Safety Evaluation	1.5	1	1	3

SEMESTER 2. SPECIALISATION - BIOMATERIALS

Course Code	Course Name	L	T	P	C
BST 611	Polymeric Biomaterials	2	1	0	3

SUMMER INTERNSHIP

Course Code	Course Name	C
BMT 552	Industrial internships / Hospital internship/ Laboratory internship	4

Students are expected to do summer internship and submit a report for obtaining the credits. The internships may preferably be done with start-ups, industries, hospitals, research institutes, academic institutes, or laboratories of SCTIMST in the order of preference.

SEMESTER 3

Course Code	Course Name	C
TQM 501	Technology, Quality & Regulatory Management of Medical Devices	3
BMT 701	MTech Thesis Research – Work Status Report & Seminar	14
Total for Semester 3		17

SEMESTER 4

Course Code	Course Name	C
BMT 702	Comprehensive Course Viva	2
BMT 703	MTech Thesis Research – Project Report & Viva Voce	15
	Total for Semester 4	17

13.4. Program Outcome

The program is expected to equip students with the knowledge and skills needed to identify unmet clinical needs and design medical devices. The following attributes are to be demonstrated by a graduate upon completing the program. The identified program outcome (PO) is listed below:

PO1: The ability and skills needed to identify unmet clinical needs and design medical devices.

PO2: The ability to identify appropriate materials, methods, design tools, and processes for the development, fabrication, and evaluation of medical devices.

PO3: Ability to understand methods to be followed in the biological evaluation of medical devices.

PO4: Understand the regulatory mechanisms underlying for taking a medical device to market.

PO5: Gain in-depth knowledge of the processes involved in the translation of medical technologies from concept to commercialization.

14. Curriculum and Syllabus

Curriculum and syllabus are available in the public domain. All aspirants are requested to visit the following web link to see the curriculum and syllabus (https://www.sctimst.ac.in/Academic%20and%20Research/Academic/Curriculum%20&%20Syllabus/resources/MTech_Biomedical_Engineering.pdf).

15. Application Procedure

Application form and application fee are to be submitted through ONLINE MODE ONLY through our website: www.sctimst.ac.in.

All bank charges are to be borne by the applicant.

Application fee (in Rupees): Rs. 1500 (Rs. 1200 for SC/ST candidates)

It is mandatory to bring printouts of the filled application form, original certificates to prove age, qualification, and experience **at the time of interview**, if selected, along with self-attested copies of the following documents:

- Online payment receipt of application fee.

- b. A valid Caste certificate for SC/ST/OBC (non-creamy layer) candidates (issued by revenue authorities, not below the rank of Tahsildar).
- c. Eligible candidates applying under the EWS category are required to produce an EWS certificate issued by a competent authority in the prescribed format given in the annexures.
- d. 'No Objection Certificate' in the case of employed/sponsored applicants in the prescribed format given in the annexures will be required.

15.1. General Instructions

1. The online application can be filled out from the date **01.06.2024 to 20.06.2024**.
2. For online application submission, please visit [https://www.sctimst.ac.in/Academic%20and%20Research/Academic/Admissions/\(www.sctimst.ac.in](https://www.sctimst.ac.in/Academic%20and%20Research/Academic/Admissions/(www.sctimst.ac.in) home page → Academic → Admissions → Register/Login to Fill up & Submit Application).
3. Avoid submitting multiple applications; duplicate applications from an applicant will result in the cancellation of all such applications. The candidate should fill in the online application with utmost care and follow the instructions.
4. It will be the candidate's responsibility to ensure that the correct details are filled in the online application form. SCTIMST will not be responsible for any incorrect information/cancellation of candidature/loss or lack of communication, etc., due to an incorrectly filled online application form.
5. The candidate must ensure that no column is left blank. The candidate must complete the filling of the application form in one go.
6. Candidates will also be provided with a 'Login' facility after successful registration of their application. Candidates can take the print-out of the application form from the dashboard of the Online Application Portal by entering the application number, email identity, and date of birth provided at the time of submission of the application.
7. If the applicant is an employee of a State or Central Government or Public Sector Undertaking, a 'No Objection Certificate' should be obtained from the employer prior to the submission of the online application. This certificate should be produced at the time of entrance examination/clinical, practical and viva-voce/interview.
8. The rules are subject to change in accordance with decisions of the Institute taken from time to time.
9. All correspondence will be through the registered email/mobile number.
10. The screening committee appointed by the Institute reserves the right to accept/reject an application.

15.2. List of documents to be uploaded

The list of documents to be uploaded at the time of online application are listed below: The photograph should be in jpeg format and all other documents shall be in pdf format.

1. A passport-size photograph (with white background).
2. An authentic document to prove the age.
3. Caste certificate for SC/ST/OBC (Non-creamy layer) issued by revenue authorities, not below the rank of Tahsildar (valid as per Government of India norms).
4. Documents to prove the EWS category, if applicable.
5. Documents to prove the PwD category, if applicable.
6. 'No Objection Certificate' in case the candidate is employed.
7. Certificates to prove academic qualifications and achievements.

15.3. Hall Ticket/Call Letter

Eligible candidates for the entrance examination can download the hall ticket/ call letter ten days before the scheduled date for the interview from the portal of our website www.sctimst.ac.in. Please bring this card with you for entering the interview hall.

16. Address for Contact

For more information, please contact:

The Deputy Registrar,
Division of Academic Affairs,
Sree Chitra Tirunal Institute for Medical Sciences and Technology,
Thiruvananthapuram - 695011, Kerala, India.
Contact telephone Nos.: (0471) 2524269, 2524289, and 2524649.
Email: regoffice@sctimst.ac.in

ACTS WARRANTING REMOVAL OF A STUDENT

The services of the student may be terminated as follows:

- a. By the Director of the Institute without any previous notice if the Director of the Institute is satisfied on medical evidence that the student is unfit and is likely for a considerable period to continue unfit by the reason of ill health for the discharge of his/her duties PROVIDED ALWAYS that the decision of the Director that the student is unfit and is likely to continue unfit, shall be conclusive and binding on him/her.
- b. By the Director of the Institute without any previous notice, if the student shall be guilty of any insubordination, interference or other misconduct or any breach or nonperformance of any of the provisions of the agreement, or of any rules pertaining to the Institute, PROVIDED ALWAYS that the decision of the Director of the Institute in this behalf shall be conclusive and binding on him/ her.
- c. Unsatisfactory disciplinary conduct during the program at SCTIMST.
- d. Furnishing willfully or knowingly false/fake particulars for admission to SCTIMST.
- e. The decision of the Director, SCTIMST shall be final as to whether any Student comes within the ambit of condition (a) or (b)] above.

ANTI-RAGGING AFFIDAVIT

Ragging in all its forms is prohibited in the Institute

All candidates, at the time of admission to the Institute, will be required to furnish an undertaking in the form of an affidavit that the candidate will not indulge in any form of ragging. If the selected candidate is found to be ragging another student, the Institute may take appropriate action against him/her.

The directive of the Hon'ble Supreme Court regarding ragging will be followed strictly. As per the direction of the Hon'ble Supreme Court of India, "the Government has banned ragging completely in any form inside and outside of the campus and the Institute authorities are determined not to allow any form of the ragging. Whoever directly or indirectly commits, participates in, abets or instigates ragging within or outside any educational Institution, shall be suspended, expelled or rusticated from the Institution and shall also be liable to a fine which may extend to Rs.10,000/-. The punishment may also include cancellation of admission, suspension from attending the classes, withholding/withdrawing fellowship/scholarship and other financial benefits, or withholding or cancelling the result. The decision shall be taken by the Head of the Institution."

Prohibition of and Punishment for Ragging:

1. Ragging in any form is strictly prohibited, within the premises of the Institution and any part of SCTIMST and also outside SCTIMST.
2. Ragging for the purpose of these rules, ordinarily means any act, conduct or practice by an individual or any collective act by which dominant power or status of senior students/residents is brought to bear on students/residents freshly enrolled or students/residents who are, in any way, considered junior or inferior by other students/residents which:
 - i) Involve physical assault or threat or use of physical force.
 - ii) Violate the status, dignity and honor of women students.
 - iii) Violate the status, dignity and honor of physically disabled/transgender students.
 - iv) Violate the status, dignity and honor of students/residents belonging to the Scheduled Castes, Scheduled Tribes and other Backward Castes.
 - v) Exposes students/residents to ridicule and contempt and affects their self-esteem.
 - vi) Entail verbal abuse and aggression, indecent gesture and obscene behavior.
- 3) The Dean, Associate Dean, Registrar, Hostel Warden and HoDs of SCTIMST may conduct a suo-moto enquiry into any ragging incident and report to the Director the identity of those who have engaged in ragging and the nature of the incident. The Director of SCTIMST shall take necessary action based on the report.

Any person aggrieved in this matter may fearlessly approach the Student Grievance and Redressal Committee/Anti-Ragging Committee/Associate Dean (Faculty and Student Affairs)/ Division of Academic Affairs of SCTIMST for a fair and concerned hearing and redressal.

UNDERTAKING BY THE CANDIDATE/STUDENT

1. I, _____ S/o. D/o. of Mr./Mrs./Ms. _____, have carefully read and fully understood the law prohibiting ragging and the directions of the Supreme Court and the Central/State Government in this regard.
2. I have received a copy of the MCI Regulations on Curbing the Menace of Ragging in Higher Educational Institutions, 2009.
3. I hereby undertake that-
 - I will not indulge in any behavior or act that may come under the definition of ragging,
 - I will not participate in or abet or propagate ragging in any form,
 - I will not hurt anyone physically or psychologically or cause any other harm.
4. I hereby agree that if found guilty of any aspect of ragging, I may be punished as per the provisions of the MCI Regulations mentioned above and/or as per the law in force.
